

INVERTIERPARK

the lack of appropriate vocabulary is necessary to describe non-classifiable work
INVERTIERPARK...

...is a laboratory for dangerous media which is run by a scalable group of designers and artists. In addition to research on "High-Speed-Interior-Design", "Randomized Creativity" and "Dynamic Ad-Control" we also provide customized services. The focus and the additional benefit of this laboratory lies in the seamless fluidity between both research and service as well as an artificial and a commercial approach.
